# Cumulative Index 1982–1984

**Volumes 26, 27, and 28**

Note: The volume year is in *italic* type. Page numbers of symposium and article titles are in **boldface** type.

## SYMPOSIA

### 1982

| | |
|---|---|
| *January* | MEDICAL EMERGENCIES IN THE DENTAL OFFICE |
| *April* | LEGAL CONSIDERATIONS IN DENTISTRY |
| *July* | DENTOFACIAL TRAUMA |
| *October* | ELECTROSURGERY |

### 1983

| | |
|---|---|
| *January* | DENTAL PHOTOGRAPHY |
| *April* | THE PATIENT WITH INCREASED MEDICAL RISKS |
| *July* | TMJ DYSFUNCTION AND TREATMENT |
| *October* | DENTAL MATERIALS |

### 1984

| | |
|---|---|
| *January* | PEDODONTICS |
| *April* | PROSTHODONTICS |
| *July* | PHARMACOLOGY AND THERAPEUTICS |
| *October* | ENDODONTICS |

Abscess, chronic asymptomatic periapical, *1984*: Oct., 739
  drainage of, *1982*: Oct., 726–728, 732–733, 876
  periapical, treatment of, *1982*: Jan., 138–140; *1984*: Oct., 738–739
Absorption, of drugs, *1982*: Jan., 35
Abutments, overdenture, *1984*: Oct., 942–944
Abutment teeth, protection for, *1984*: Apr., 344–345
  restoration of, *1984*: Apr., 351
  weak, *1984*: Apr., 211
Access cavity, premolars, *1984*: Oct., 816
  preparation of, *1984*: Oct., **809–818**
Accessory and lateral canal, difference between, *1984*: Oct., 834
Acetaminophen, adverse reactions to, *1984*: July, 409
  analgesic effect of, *1984*: Oct., 877
  efficacy of, *1984*: July, 407–409
  for chronic facial pain, *1984*: July, 475
  interactions with other drugs, *1983*: Apr., 388
Acetylsalicylic acid (ASA), hydrolysis of, *1984*: Oct., 876
Acids and chelating agents, use of as irrigants, *1984*: Oct., 798
Acid etching, as preparation for resin restoration, *1983*: Oct., 716–717

Acidosis, respiratory, cardiac arrest and, *1982*: Jan., 65–66
Acoustic neuroma, as cause of facial pain, *1983*: July, 476–477
Acyclovir, as antiviral agent, *1984*: July, 451
Addiction, narcotic, *1983*: Apr., 400
Advertising, by dentists, *1982*: Apr., 285
Affected pulps, potentially reversible, differential diagnosis of, *1984*: Oct., 700
Ageusia, as result of radiation therapy, *1983*: Apr., 242
Aging, pharmacologic responses to, *1984*: July, 581–590
  physiologic changes in, *1984*: July, 583
Agonists, antagonists and, *1984*: July, 393–394
Airway obstruction, *1982*: Jan., 197–206
  in patients with facial fractures, *1982*: July, 631–632
Airway sounds, evaluation of, *1982*: Jan., 17
Alcohol, drug interactions with, *1983*: Apr., 351–354
Alcoholics, identification of, *1983*: Apr., 344–346
  oral problems of, *1983*: Apr., 355–359
Alcoholism, defined, *1983*: Apr., 342–343
  dentistry and, *1983*: Apr., **341–361**
  effect on dental treatment management, *1983*: Apr., 346–355, 359
  in the dentist, *1983*: Apr., 346
Aldehydes, phenolic derivatives and, *1984*: Oct., 794
Alginates, advantages of, *1984*: Apr., 225
  disadvantages of, *1984*: Apr., 225–226
  suggestions for clinical use of, *1984*: Apr., 226–228
  use of for diagnostic and preliminary impressions, *1984*: Apr., 224–228
Alkaline solutions, use of as irrigants, *1984*: Oct., 798
Allergic emergencies, management of, *1983*: Apr., 415–417
Allergic patient, identification of, *1983*: Apr., 405–407
Allergic reactions, to anesthetics, *1983*: Apr., 410–414
  to antibiotics, *1983*: Apr., 414–415
  delayed, *1983*: Apr., 405–406
  immediate, *1983*: Apr., 405–406
  prevention of, *1983*: Apr., 407–408
Allergies, dental patient with, *1983*: Apr., **403–417**
Allergy-related emergencies, *1982*: Jan., **87–98**
Allergy testing, *1983*: Apr., 408–410
Alloy(s), alternative type III and IV, *1983*: Oct., 745–746
  metal-ceramic, selection of, *1983*: Oct., 747–754
Alphaprodine, as pediatric sedative, *1984*: July, 571
Amalgam(s), clinical applications of, *1984*: Jan., 137–142
  manipulation of, *1984*: Jan., 139–140
  marginal failure of, *1984*: Jan., 137
  pigmentation by, *1983*: Oct., 661
  restoration of primary teeth with, *1984*: Jan., 137–142
Amalgam alloys, clinical studies of, *1983*: Oct., 693
  delivery systems of, *1983*: Oct., 692–693
  manipulative characteristics of, *1983*: Oct., 690–692
  post-carve burnishing of, *1983*: Oct., 695
  pre-carve burnishing of, *1983*: Oct., 694–695
  selection of, *1983*: Oct., 690–693
Amalgam restorations, alloy selection for, *1984*: Jan., 139
  burnishing of, *1983*: Oct., 693–694
  compressive strength of, *1983*: Oct., 687–688
  condensation and, *1984*: Jan., 140
  dimensional change of, *1983*: Oct., 688–689
  finishing of, *1984*: Jan., 141–142
  flow and creep of, *1983*: Oct., 687
  preparation of cavities for, *1984*: Jan., 138–139
  properties of, *1983*: Oct., 686–690
  role of dental assistant in, *1984*: Jan., 140–141
  selection of alloy for, *1983*: Oct., 690–693
  tarnish and corrosion of, *1983*: Oct., 689–690
Amalgam reverse filling, instrument for, *1984*: Oct., 977–979
Ameloblastoma, periapical involvement secondary to, *1984*: Oct., 749
Amelogenesis imperfecta, as cause of intrinsic pigmentation, *1983*: Oct., 659
Amine fluorides, role of, *1984*: July, 627
Amitriptyline, for control of pain, *1984*: July, 480
Amphetamines, abuse of, *1984*: July, 604–605
Anaerobes, oral infections and, *1984*: July, 428–429
Analgesics, centrally acting, *1984*: Oct., 877
  dosage for, *1984*: July, 474
  for chronic pain, *1984*: July, 473–478
  narcotic, *1984*: July, 478
    recommended dosages of, *1984*: July, 572
  nonnarcotic, recommended dosages of, *1984*: July, 572
  nonopioid, for dental pain, *1984*: July, **401–412**
    mode of action of, *1984*: July, 401–404
    salicylates, *1984*: July, 404–407
  opioid, definition of, *1984*: July, 390
  oral, *1984*: Oct., 872–878

peripherally acting, *1984*: Oct., 874–875
postoperative, *1984*: July, 572
psychosedatives combined with, *1984*: July, 419–420
stimulants combined with, *1984*: July, 421
Analgesic drugs, interaction of other drugs with, *1983*: Apr., 395–401
Analgesic drug combinations, oral, *1984*: July, **413–422**
Anaphylactoid reactions, as emergencies, *1982*: Jan., 90
Anaphylaxis, as emergency, *1982*: Jan., 89–90; *1983*: Apr., 415–416
Anatomic shadows, radiolucent and radiopaque, *1984*: Oct., 731
Anatomic teeth, problems with, *1984*: Apr., 281–285
Anesthesia, enhancement of, *1984*: Oct., 791–793
errors, as source of malpractice, *1982*: Apr., 338
induction of, in alcoholics, *1983*: Apr., 359
general, administration of nasal decongestant during, *1984*: Jan., 112
dental equipment and facilities for, *1984*: Jan., 113
discharge of patient and follow-up care after, *1984*: Jan., 117
evaluation and consent for, *1984*: Jan., 111
for outpatients, *1984*: Jan., **107–122**
management of, *1984*: Jan., 112–113
patient selection for, *1984*: Jan., 108–110
postoperative management of patient with, *1984*: Jan., 115–117
pre-operative work-up and assessment for, *1984*: Jan., 110–111
surgical management during, *1984*: Jan., 113–115
Anesthesia, topical pulpal, *1984*: Oct., 871–872
Anesthetics, analgesics, antibiotics and, *1984*: Oct., **865–882**
local, *1984*: Oct., 865–872
allergic reaction to, *1982*: Jan., 92–95; *1983*: Apr., 410–414; *1984*: July, 505–506
classification of, *1984*: July, 493–495
complications of, *1984*: July, 503–506
in dental practice, *1984*: July, **493–508**
mechanism of action of, *1984*: July, 495–496
psychogenic reactions to, *1984*: July, 504–505
toxicity of, *1984*: July, 503–504
Anesthetic agents, use of, *1984*: Oct., 872
Aneurysm, headaches of, *1983*: July, 472
Angina pectoris, *1982*: Jan., 52–53
treatment of, *1983*: Apr., 314–315
Angioedema, hereditary, *1982*: Jan., 95–96
Angioma, headaches of, *1983*: July, 472
Angioplasty, coronary, for coronary artery disease, *1983*: Apr., 315–316
Anomalies, distribution in primary anterior teeth and effect on permanent successors, *1984*: Jan., **69–80**
Antagonists, agonists and, *1984*: July, 393–394
Anterior sextant, maxillary, *1984*: Oct., 813–814
Antibiotics. See also under specific agents.
allergic reactions to, *1983*: Apr., 414–415
allergic susceptibility to, *1984*: July, 432
antibacterial spectrum of, *1984*: July, 429
choices of, *1984*: July, 423–428
clinical effectiveness of, *1984*: July, 428–432
concentration at infection site, *1984*: July, 430–431
distribution of, *1984*: July, 430–431
dosage formulation of, *1984*: July, 431
dosage regimens of, *1984*: July, 430
effectiveness of, variables altering, *1984*: July, 428
indications for, *1984*: July, 423–428; *1984*: Oct., 878–879
pregnancy and, *1984*: July, 432
prophylactic, *1984*: July, 424–428
in dentistry, *1984*: July, 433–453, 455–461
in medicine, *1984*: July, 456–457
selection of, *1984*: Oct., 879–881
side effects of, *1984*: Oct., 794
Anticholinergics, adverse reactions to, *1984*: July, 526–527
Apicocurettage, indications for, *1984*: Oct., 901–902
Apioectomy, indications for, *1984*: Oct., 902–904
Anticonvulsants, for pain, *1984*: July, 480–482
Antidepressants, for pain, *1984*: July, 479–480
MAOIs, *1984*: July, 479
tricyclic, *1984*: July, 479
Antihypertensive drugs, interaction with other drugs, *1983*: Apr., 389–395
Anti-infective therapy, principles of, *1984*: July, **423–432**
Antimicrobial agents, adverse reactions to, *1984*: July, 574
in vitro studies of, *1984*: Oct., 787–788
in vivo studies of, *1984*: Oct., 788
indications for, *1984*: July, 573
pediatric dosages of, *1984*: July, 574
risks associated with, *1984*: Oct., 789
Antipsychotics, for intractable pain, *1984*: July, 482–484
Anxiety, parental, reduction of, *1984*: Jan., 91–92

Apexification, age of patient as a consideration for, *1984*: Oct., 684
apexogenesis versus, *1984*: Oct., 669–697
apical diameter as a consideration for, *1984*: Oct., 684
condensation and, *1984*: Oct., 688–690
definition of, *1984*: Oct., 681
drying of canals for, *1984*: Oct., 686
endodontic access for, *1984*: Oct., 685
instrumentation for, *1984*: Oct., 685–686
introduction of paste for, *1984*: Oct., 688
irrigation for, *1984*: Oct., 686
prognosis for tooth and, *1984*: Oct., 682–683
root development as a consideration for, *1984*: Oct., 684
technique for, *1984*: Oct., 684–695
Apexogenesis, apexification versus, *1984*: Oct., **669–697**
definition of, *1984*: Oct., 671
goals of, *1984*: Oct., 678–679
Apical odontogenic complex, injury to, *1982*: July, 484–503
Apical preparation, instrumentation for, *1984*: Oct., 822–823
Appliance(s). See *Splinting*.
Apthae, oral, *1984*: July, 545–548
Arbitration, as alternative to malpractice litigation, *1982*: Apr., 428
binding, as alternative to malpractice litigation, *1982*: Apr., 430, 434–437
Arrhythmias, in myocardial infarction, *1982*: Jan., 54
Art, graphic, preparation in dental photography, *1983*: Jan., 68–70, 75–94, 96–97, 101–102
Arthritis, infections, of the TMJ, *1983*: July, 464
juvenile rheumatoid, *1983*: July, 464
TMJ disorders and, *1983*: July, 457
Arthrography, of TMJ, *1983*: July, 468, 532–533
Articular disease, TMJ disorders and, *1983*: July, 457
Articulated models, for analyzing occlusion, *1983*: July, 549
Articulation, laws of, *1984*: Apr., 275–276
Articulators. See under specific instruments.
Asepsis, technique of, *1984*: Oct., 641–642
Aspirin, adverse reactions to, *1984*: July, 405–406
efficacy of, *1984*: July, 404
for chronic facial pain, *1984*: July, 475
interactions with other drugs, *1983*: Apr., 395–396
Asthma, as emergency, *1982*: Jan., 96–97
dental patient with, *1983*: Apr., 381–383
hypnotic-induced, *1984*: July, 525
Asymmetry, mandibular, *1983*: July, 554–555
Atlas, dental, preparation of, *1983*: Jan., 139–149
Baby bottle caries, *1982*: Oct., 717–718
Background, lighting and, in dental photography, *1983*: Jan., 56–61
Bacteria, as source of pulp injury, *1983*: Oct., 652
Bacterial resistance, degree of, *1984*: July, 429–430
minimizing, *1984*: July, 429–430
Bases, protective, *1983*: Oct., 653
Behavior, management of, in children, *1984*: Jan., **81–93**
parental influence on, *1984*: Jan., 85
patterns of in dental office, *1984*: Jan., 83–84
techniques of management for, *1984*: Jan., 86–90
Behavior management, communication and, *1984*: Jan., 86–87
delaying tactics of children and, *1984*: Jan., 87
flooding techniques, psychologic implications of, *1984*: Jan., 90
hand-over-mouth technique and, *1984*: Jan., 88–89
infants and, *1984*: Jan., 90
parents and, *1984*: Jan., 91–92
parents in operatory and, *1984*: Jan., 92
physical restraints and, *1984*: Jan., 89
rules for children and, *1984*: Jan., 86
validation of child's fears and, *1984*: Jan., 86–87
voice control and, *1984*: Jan., 87
Behavior modification, desensitization and, *1984*: Jan., 87–88
flooding techniques and, *1984*: Jan., 88–90
modeling and, *1984*: Jan., 87
Behavior problems, clinical solution for, *1984*: Jan., 91
Behçet syndrome, systemic implications of, *1984*: July, 547
Bell's palsy, as cranial polyneuritis, *1983*: July, 632, 636
Benzodiazepines, abuse of, *1984*: July, 602
Bilateral balance, advantages of, *1984*: Apr., 275
Block, transition, *1984*: July, 497–498
Biopsy, electrosurgical, *1982*: Oct., **855–872**
Biotransformation, of drugs, *1982*: Jan., 36
Bite marks, photography of, *1983*: Jan., 162–169
Biterminal electrode, *1982*: Oct., 683
Bleaching, of teeth, by electrocoagulation, *1982*: Oct., 786–787
Bleeding. See also *Hemorrhage*.
Bleeding disorders, of oral cavity, *1982*: Jan., **71–86**
Bleeding problems. See also under specific diseases.
of oral cavity, *1983*: Apr., **271–288**
management of, *1983*: Apr., 279–288
Blood pressure, arterial, evaluation of, *1982*: Jan., 15

high. See also *Hypertension.*
measurement of, *1983*: Apr., 293–294
Body, human, dynamic unity of, *1983*: July, 609–610
Bonding resins, intermediary, *1983*: Oct., 717
Bone, alveolar. See *Alveolar bone.*
destruction of, *1984*: Oct., 728–729
functions of, *1984*: Apr., 216–217
loss of, radiograph demonstrating, *1984*: Apr., 329
necrosis of, as complication of radiation therapy, *1983*: Apr., 246
radiopaque lesions of, *1984*: Oct., 761
Bradycardia, in myocardial infarction, *1982*: Jan., 54
Bridge. See *Crown and bridge.*
Bruxism, as cause of headache, *1983*: July, 472
in alcoholics, *1983*: Apr., 358
in TMJ dysfunction, *1983*: July, 501
Buccal mirror, in dental photography, *1983*: Jan., 50

Calcium absorption, lack of, as cause of osteoporosis, *1984*: Apr., 215–216
Calcium hydroxide, preparation of, *1984*: Oct., 687–688
Calculus(i), in submaxillary gland. See *Sialolith(s).*
Cameras in dental photography, bellows for, *1983*: Jan., 14–17
film for, *1983*: Jan., 132–135. See also *Photography, dental.*
flash units for, *1983*: Jan., 27–32
lenses for, *1983*: Jan., 17–27
light brackets for, *1983*: Jan., 35–40
types of, *1983*: Jan., 10–14
Canal, preparation of, *1984*: Oct., 643
Canal system, sealing of, *1984*: Oct., 646–649
Cancer. See also *Neoplasia.*
dental patient with, *1983*: Apr., **235–245**
hematologic, bleeding problems with, *1983*: Apr., 286–287
oral, biopsy in, *1982*: Oct., **855–872**
in alcoholics, *1983*: Apr., 357–358
Candidiasis, as result of radiation therapy, *1983*: Apr., 242
drug-related, *1984*: July, 535
management of, *1984*: July, 551–552
Candidosis. See *Candidiasis.*
Capillaries, dilated and congested, *1984*: Oct., 713
Carbamazepine, as analgesic, *1984*: July, 481–482
Cardiac arrest, *1982*: Jan., 59–68
Cardiac asystole, *1982*: Jan., 59
Cardiac compression, in CPR, *1982*: Jan., 63–64
Cardiac disease, in patients with dental trauma, *1982*: July, 558–560
Cardiac emergencies, *1982*: Jan., **49–69**
Cardiopulmonary resuscitation. See *CPR.*
Cardiovascular collapse, cardiac arrest and, *1982*: Jan., 59
Cardiovascular disease. See also *Heart disease.*
Cardiovascular signs, evaluation of, during emergency, *1982*: Jan., 14–16
Caries, as cause of intrinsic pigmentation, *1983*: Oct., 661
as result of chemotherapy, *1983*: Apr., 240
as result of radiation therapy, *1983*: Apr., 242–243
baby bottle, *1982*: Oct., 717–718
caused by nursing, *1984*: Jan., 4–9
disabled patients with, *1984*: Jan., 104
fissure lesions of primary molars and, *1984*: Jan., 3–4
patterns in preschool children, *1984*: Jan., **3–20**
rampant, *1984*: Jan., 18
subgingival, removal of hyperplastic tissue from, *1982*: Oct., 715–716
treatment of, *1984*: Oct., 946
Carisoprodol, for facial pain, *1984*: July, 485
Case history and examination, of patient with TMJ dysfunction, *1983*: July, **505–522**
Casts, dental photography of, *1983*: Jan., 63–64, 165–167
Cast restorations, principles of, *1984*: Oct., 940–941
Cauterization, risks of, *1982*: Oct., 686
Cavity, preparation of, for restoration, *1983*: Oct., 650
Cement(s), clinical performance of, *1983*: Oct., 783–787
dental, current status and future prospects of, *1983*: Oct., **763–792**
factors affecting clinical performance of, *1983*: Oct., 778–783
methacrylate-(resin-)based, *1983*: Oct., 777–778
acrylic, *1983*: Oct., 777
BIS-GMA types, *1983*: Oct., 777–778
phenolate-based, *1983*: Oct., 768–772
chelate, *1983*: Oct., 770–772
zinc oxide-eugenol, *1983*: Oct., 769–770
phosphate-based, *1983*: Oct., 765–768
polycarboxylate-based, *1983*: Oct., 772–777
glass ionomer, *1983*: Oct., 775–777
types of, *1983*: Oct., 765–778

Cement(s) (*Continued*)
use of in endodontics, *1984*: Oct., 648–649
Cementation, aspects of, *1983*: Oct., 779–783
cavity bases in, linings and, *1983*: Oct., 782–783
retention in, *1983*: Oct., 780–782
seating in, *1983*: Oct., 779–780
Cementoma, periapical, *1984*: Oct., 742–745
Central anticholinergic syndrome, management of, *1984*: July, 516–517
prevention of, *1984*: July, 516
Cephalograms, of TMJ, *1983*: July, 548–549
Cephalosporins, activity of, *1984*: July, 442–444
adverse effects of, *1984*: July, 444
Ceramics, glass, *1983*: Oct., 756–757
non-shrink, *1983*: Oct., 755–766
Ceramo-alloys, base metal and, *1983*: Oct., 742–744
biologic considerations of, *1983*: Oct., 745
esthetic dentistry and, *1983*: Oct., 738–742
Cerebral infarction, as cause of stroke, *1982*: Jan., 100–101
Cerebral palsy, management of, *1983*: Apr., 365–368
Cerebrovascular accident. See *Stroke*.
Charts and graphs, preparation in dental photography, *1983*: Jan., 68–70, **75–94**, 96–97, 101–102
Chemotherapy, treatment of cancer patient by, *1983*: Apr., 238–240
Chest wall rigidity, narcotic analgesic-induced, *1984*: July, 521–522
Children, behavior management of, *1984*: Jan., **81–93**
dentistry for, symposium on, *1984*: Jan., **3–203**
emotional development of, *1984*: Jan., 81–83
medication of, *1984*: July, **563–579**
monitoring during, *1984*: July, 564
premedication of, *1984*: July, 563–566
Ciliary neuralgia. See *Facial pain, atypical*.
Chloral hydrate, as sedative, *1984*: July, 567–568
Chloroxazone, acetaminophen with, *1984*: July, 485–486
Chlorpromazine, pharmacologic action of, *1984*: July, 483
Christensen phenomenon, description of, *1984*: Apr., 275
Chronic pulpitis, hyperplastic form of, *1984*: Oct., 718
Cleft, of ear lobe, electrosurgical repair of, *1982*: Oct., 820–822
Cleft lip or palate, management of child with, *1984*: Jan., 18
Clicking, reciprocal, of the TMJ, *1983*: July, 565, 584–588
TMJ pain and, *1983*: July, 495–497
Clindamycin, lincomycin and, *1984*: July, 444–445
Closed-lock conditions, acute craniomandibular dysfunction as sources of, *1983*: July, 556
Cluster headache, *1983*: July, 471–472
Coagulation, abnormalities of, *1982*: Jan., 75–80
by electric methods, *1982*: Oct., 685
tests for, normal values, *1982*: Jan., 74
Coagulation defects, platelet/vessel defects compared with, *1983*: Apr., 277
Coagulation factors, *1982*: Jan., 71–74; *1983*: Apr., 272–273
Cocaine, abuse of, *1984*: July, 605–606
Code of Professional Responsibility, for lawyers, *1982*: Apr., 246–249
Codeine, analgesic efficacy of, *1984*: Oct., 877–879
Collagen, types of, *1983*: July, 574–576
Color systems, new, *1983*: Oct., 760
Coma, in diabetes mellitus, *1983*: Apr., 332–334
Compensation, for personal injury, factors affecting, *1982*: July, 671–675
Composite build up, as method to restore discolored teeth, *1983*: Oct., 666–667
Composite resins, advantages of for restoration of anterior teeth, *1984*: Jan., 145–147
color stability of, *1984*: Jan., 146
dimensional stability of, *1984*: Jan., 145
of primary incisor, limited compatibility of, *1984*: Jan., 154–155
placement of, *1984*: Jan., 153–154
resistance to wear and, *1984*: Jan., 146
Composite resin restorations, bonding agents for, *1984*: Jan., 152
case selection criteria for, *1984*: Jan., 150
preparation of cavity for, *1984*: Jan., 150–151
Computed tomography (CT), in examining TMJ, *1983*: July, 533
Condyle, displacement of, degenerative joint disease and, *1983*: July, 485
fractures of, management of, *1982*: July, 645–647
mandibular, *1983*: July, 495
mobility of, *1983*: July, 529
decreased in degenerative disease of TMJ, *1983*: July, 468–469
Condyloma acuminatum, dental patient with, *1983*: Apr., 258–260
Congenital defects, overdentures for, *1984*: Apr., 352

Connective tissue, disorders of, *1983*: July, 469
Contact, premature, definition of, *1984*: Apr., 273
Contracts, dentistry and, *1982*: Apr., **281–286**
Convulsions, in dental patients, *1982*: Jan., **123–127**
Contingent fee, of lawyer, *1982*: Apr., 222, **341–352**
  conflicts of interest, *1982*: Apr., 349
  unreasonable, *1982*: Apr., 344–349
Core, fabrication of, *1984*: Oct., 966–972
  function of, *1984*: Oct., 938
  prevention of loosening of, *1984*: Oct., 938
Core material, choice of, *1984*: Oct., 938–939
Cornell Medical Index, psychological assessment and, *1984*: Apr., 362–363
Coronary artery disease, defined, *1983*: Apr., 313–317
  management of, *1983*: Apr., 317–319
Coronoid process, fractures of, management of, *1982*: July, 648
Corticosteroids, short-term therapy with, *1984*: July, 553–554
Cosmetic dentistry, electrosurgery in, *1982*: Oct., 721–722, **781–798, 891–898**
  maxillofacial, electrosurgery in, *1982*: Oct., **799–823**
Cotton points, custom rolled, *1984*: Oct., 972–974
Countersuit litigation, *1982*: Apr., **389–400**
  under malicious prosecution theory, *1982*: Apr., 391–397
    alternative remedies, *1982*: Apr., 397–399
CPR, errors in handling, *1982*: Jan., 164–165
  technique of, *1982*: Jan., 62–65
Cranial nerve abnormalities, in patients with TMJ dysfunction, *1983*: July, 633–634
  disorders, in contrast to TMJ dysfunction, *1983*: July, 469–471
Cranial neuritis, acute, natural course of, *1983*: July, 636
Craniocervical-mandibular syndrome, diagnosis of, *1983*: July, 498
Craniofacial trauma, in alcoholics, *1983*: Apr., 355–356
Craniomandibular disorders, orthodontic treatment of, *1983*: July, 557–559
  role in orthodontic diagnosis and treatment planning, *1983*: July, **541–560**
  source of, *1983*: July, 555–556
  symptoms of, *1983*: July, 523–525
Crepitus, bony, of TMJ, *1983*: July, 468–469, 563–566
Criminal proceedings, dentist involved in, *1982*: Apr., **401–404**
Crown, clinical, elongation of, *1982*: Oct., 716–717, 793–795
    in preclinical exercises, *1982*: Oct., 696
  developmental injuries of, *1982*: July, 499–503
  fractures of, *1982*: July, 468–469
    complicated, endodontics for, *1982*: July, 506–509
    uncomplicated, endodontics for, *1982*: July, 506
  laminate veneer, as method to restore discolored teeth, *1983*: Oct., 667–669
  stainless steel, clinical adaptation technique for, *1984*: Jan., 167–174
    clinical appearance of, *1984*: Jan., 157–158
    contouring of, *1984*: Jan., 172
    evaluating margins of, *1984*: Jan., 174
    examining underside of, *1984*: Jan., 173
    length of, *1984*: Jan., 159–161
    placing of, *1984*: Jan., 173
    radiographic appearance of, *1984*: Jan., 158–167
    reducing height of, *1984*: Jan., 168–169
    shape of margins, *1984*: Jan., 161–163, 169–171
  two principles for improving adaptation to primary molars, *1984*: Jan., **157–175**
Crown and bridge prosthodontics, anterior, electrosurgery in, *1982*: Oct., 763–770
  electrosurgery in, *1982*: Oct., **745–758, 759–780**
  posterior, electrosurgery in, *1982*: Oct., 771–779
Crown-root fractures, classification of, *1984*: Oct., 883–884
  diagnosis of, *1984*: Oct., 884–889
  endodontics for, *1982*: July, 509–511
  vertical, in posterior teeth, *1984*: Oct., **883–894**
CT. See *Computed tomography*.
Cultures, asepsis and, *1984*: Oct., 642
Current(s), electrosurgical, *1982*: Oct., **683–691**
  fully rectified, *1982*: Oct., 688
  fully rectified filtered, *1982*: Oct., 688
  partially rectified, *1982*: Oct., 688
  regulation of, *1982*: Oct., 687, 755–756, 842–844
  selection of, in periodontics, *1982*: Oct., 877
Current density, in electrosurgery, *1982*: Oct., 687
Curettage, periodontal, electrosurgery for, *1982*: Oct., 881–885
Curve of Wilson, definition of, *1984*: Apr., 273
Cyclobenzaprine, for facial pain, *1984*: July, 485
Cysts, dentigerous, *1984*: Oct., 745

Cysts (*Continued*)
radicular, *1984*: Oct., 735–737
traumatic bone, *1984*: Oct., 744–745

Data base, on patient with increased medical risks, *1983*: Apr., 224–228
Decision analysis, and malpractice litigation, *1982*: Apr., **411–421**
Defect, surgical, *1984*: Oct., 739–740
Defibrillation, technique of, *1982*: Jan., 66
Degenerative disease of TMJ. See *Osteoarthritis*.
Dehydration, causes of, *1984*: Apr., 214
failure of removable prostheses caused by, *1984*: Apr., 212–215
treatment for, *1984*: Apr., 214–215
water loss and, symptoms of, *1984*: Apr., 214
Dental casting alloys, alternative, *1983*: Oct., **733–746**
Dental education, graduate, dental photography in, *1983*: Jan., **109–120**
Dental follicle, development of, *1982*: July, 458–459
Dental implants. See *Implant(s)*.

Electrocautery, vs. electrosurgery, *1982*: Oct., 686
Electrocoagulation, *1982*: Oct., 685
of bleeder, *1982*: Oct., 738
Electrode(s), definition of, *1982*: Oct., 683
dispersive, application of, *1982*: Oct., 755
orientation, in electrosurgery, *1982*: Oct., 850
selection of, in cosmetic surgery, *1982*: Oct., 800

in tissue dilation, *1982*: Oct., 761–762
types of, *1982*: Oct., 689
Electrodesiccation, *1982*: Oct., 685
Electrofulguration, *1982*: Oct., 685
Electrosection, *1982*: Oct., 684–685
treatment of hyperplasia, *1982*: Oct., 712–714
vs. steel scalpel surgery, *1982*: Oct., 729–730
Electrosurgery, advantages of, *1982*: Oct., 689–690, 838–839
contraindications to, *1982*: Oct., 840–841
disadvantages of, *1982*: Oct., 840
for Dilantin hyperplasia, *1982*: Oct., **825–833**
for tissue dilation, *1982*: Oct., **759–780**
in diagnosis of cancer, *1982*: Oct., **855–872**
indications for, *1982*: Oct., 847
principles of, *1982*: Oct., 841–844
research in, *1982*: Oct., **835–854**
symposium on, *1982*: Oct., **683–898.** See also specific conditions, as *Hyperplasia*.
technique, preclinical exercises in, *1982*: Oct., **693–697**
vs. electrocautery, *1982*: Oct., 686
vs. steel scalpel surgery, in biopsy excisions, *1982*: Oct., 855–856
in removal of retromolar flap, *1982*: Oct., 723, 727
Electrosurgical current(s), *1982*: Oct., **683–691**. See also *Current(s)*.
Electrosurgical equipment, *1982*: Oct., 686–688, **699–710**
placement of, *1982*: Oct., 700–702
purchasing guide for, *1982*: Oct., 702–709
Electrosurgical techniques, clinical. See under specific disciplines, as *Pedodontics*.
Embryology, of dentofacial complex, *1982*: July, **445–459**
Emergencies, allergic, management of, *1983*: Apr., 415–417
allergy-related, *1982*: Jan., **87–98**
cardiac, *1982*: Jan., **49–69**
dental, legal aspects of, *1982*: Jan., **187–195**
medical, errors in handling, *1982*: Jan., **163–186**
evaluation of patient during, *1982*: Jan., **13–19**
in the dental office, symposium on, *1982*: Jan., **3–208**
management, of, training for, *1982*: Jan., **147–162**
respiratory, *1982*: Jan., **197–208**
Emphysema, dental patient with, *1983*: Apr., 383–384
hypoplasia of, as cause of intrinsic pigmentation, *1983*: Oct., 660–661
Enamel organ, development of, *1982*: July, 454–457
Endocarditis, bacterial, prevention of, *1983*: Apr., 309–311
Endodontics, an overview of, *1984*: Oct., **637–649**
electrosurgery in, *1982*: Oct., 718–720
endosonic, *1984*: Oct., 645
for traumatized teeth, *1982*: July, **505–523**
history of, *1984*: Oct., 637–641
one-visit, *1984*: Oct., **853–863**
restorative reasons for, *1984*: Oct., 857
simplifying, *1984*: Oct., **953–979**
symposium on, *1984*: Oct., **637–979**
Endodontic irrigation technique, improved, *1984*: Oct., 964–965
Endodontic lesions, primary, *1984*: Oct., 767–770
Endodontic-periodontic interrelationships, diagnosis and treatment, *1984*: Oct., **767–781**
secondary periodontic involvement with, *1984*: Oct., 770
Endodontic procedures, preclinical dentec for teaching, *1984*: Oct., 957–961
Endodontic surgery, armamentarium and anesthesia for, *1984*: Oct., 896–897
rationale for, *1984*: Oct., 895–896
Endodontic surgery for the general practitioner, principles of, *1984*: Oct., 895–908
Endodontic therapy, coronal build-up of degraded tooth prior to, *1984*: Oct., 962–964
Endodontic triad, illustration of, *1984*: Oct., 819–820
Endodontically treated tooth, restorative concepts and techniques for, *1984*: Oct., 923–951
Endorphins, structure of, *1984*: July, 391
Enamel, hypoplastic lesions of, *1984*: Jan., 9–13
Energy, metabolism of, by muscle, *1983*: July, 440–441
Enlargement, endodontics and, *1984*: Oct., 642–645
Eosinophil chemotactic factor, as immunologic mediator, *1982*: Jan., 89
Epinephrine, for anaphylactic and anaphylactoid reactions, *1982*: Jan., 90–91
Equilibrium, loss of, as symptom of craniomandibular disorder, *1983*: July, 523
Equipment, electrosurgical, *1982*: Oct., 686–688, **699–710.** See also *Electrosurgical equipment*.
Ergot derivatives, for use in headache, *1984*: July, 488
Erythema multiforme, diagnosis of, *1984*: July, 533–534
drugs causing, *1984*: July, 534
Erythroblastosis fetalis, as cause of intrinsic pigmentation, *1983*: Oct., 659

Erythromycin, activity of, *1984*: July, 441–442
adverse effects of, *1984*: July, 442
Esthetics, dental, electrosurgery in, *1982*: Oct., 721–722, **781–798, 891–898**
Etching, acid, of enamel, *1983*: Oct., 652–653
Ethics, in malpractice litigation, *1982*: Apr., **245–252**
Examinations, dental, as preventive measure, *1984*: Jan., 24
Examination form, for history of patient with TMJ, *1983*: July, 515–522
Exercises, preclinical, in electrosurgery, *1982*: Oct., **693–697**
Expert witness, dental, *1982*: Apr., **383–388**
relationship with lawyer, *1982*: Apr., 384
research and preparation, *1982*: Apr., 385–386
Extra-articular diseases, TMJ disorders and, *1983*: July, 457
Extraction, of teeth, radiation therapy and, *1983*: Apr., 243–244

Face, development of, *1982*: July, 447–449
Facial asymmetry, TMJ pain dysfunction syndrome and, *1983*: July, 495
Facial causalgias. See *Facial pain, atypical.*
Facial neuralgia. See *Facial pain, atypical.*
Facial pain, *1983*: July, **435–443**, 534
atypical, *1983*: July, 472–474
psychogenic, *1983*: July, 473–474
chronic, pharmacotherapy for, *1984*: July, **471–491**
TMJ dysfunction and, *1983*: July, 495–498
Fainting, as medical emergency, *1982*: Jan., 119–122
Fascial spaces, infections of, as complication of odontogenic infection, *1982*: Jan., 141–142
Fees, of lawyers, *1982*: Apr., 250, **341–352**
pricing strategies of, *1984*: Jan., 128–129
Fenemates, side effects of, *1984*: Oct., 875
Fenoprofen, efficacy of as analgesic, *1984*: July, 477
Fetal alcohol syndrome, *1983*: Apr., 350–351
Fibroma, ossifying and cementifying, *1984*: Oct., 748
Fibrositis, in TMJ dysfunction, *1983*: July, 465, 507
Film, processing of, *1984*: Jan., 45
Film in dental photography. See *Cameras in dental photography, film for.*
Finger spreaders, use of, *1984*: Oct., 828–831
Fissure lesions, caries in primary molars with, *1984*: Jan., 3–4
Fistula, oroantral, electrosurgical repair of, *1982*: Oct., 810–812
Fixed splints, mandibular, conversion of to Kennedy class III, *1984*: Apr., 332
maxillary, conversion to Kennedy class II, *1984*: Apr., 334
Flap, buccal, in repair of oroantral fistula, *1982*: Oct., 810–812
envelope or gingival, *1984*: Oct., 900–901
full mucoperiosteal, *1984*: Oct., 899–900
modified Widman, *1982*: Oct., 881–885
mucoperiosteal in attached gingiva, *1984*: Oct., 899
retromolar, removal of, *1982*: Oct., 723, 727
semiulnar, *1984*: Oct., 898–899
surgical, *1984*: Oct., 901
types of, *1984*: Oct., 897–901
Flap design, principles of, *1984*: Oct., 897
Fluid movement, pulpal pain fiber excitation and, *1984*: Oct., 708–709
Fluoridated drinking water, preventive dentistry and, *1984*: Jan., 23
Fluoridation, effects of, *1984*: July, 612
reduction in caries as result of, *1984*: July, 612
Fluoride, antibacterial effects of, *1984*: July, 613, 619–623
future possibilities for use of, *1984*, July, 626–627
ingestion of during pregnancy, *1984*: July, 614
lethal doses of, *1984*: July, 616
mechanism of action of, *1984*: July, 611–614
remineralization of osteoporotic bone and, *1984*: Apr., 217
Fluoride dentifrices, accepted preparations of, *1984*: July, 618
preventive dentistry and, *1984*: Jan., 24
Fluoride devices, slow-release, role of, *1984*: July, 627
Fluoride dosage schedule, supplemental, *1984*: July, 615
Fluoride mouthrinse, preventive dentistry and, *1984*: Jan., 23–24; *1984*: July, 619–624
Fluoride support, practitioner's role in, *1984*: July, 614–616
Fluoride tablets, preventive dentistry and, *1984*: Jan., 23
Fluoride therapy in clinical practice, *1984*: July, **611–629**
Fluoride varnishes, role of, *1984*: July, 626–627
Fluphenazine, use of in patients with constant central pain, *1984*: July, 483
Follicle, dental, development of, *1982*: July, 458–459
Forensic dental photography, *1983*: Jan., **151–170**

Fracture(s), facial, surgery for, *1982*: July, **631–658**
incomplete class I, *1984*: Oct., 889–891
incomplete class II, *1984*: Oct., 891–894
of young permanent dentition, *1982*: July, **525–554**
periodontal probing and, *1984*: Oct., 886
pulp exposure in, *1982*: Oct., 720–721
radiographic examination of, *1984*: Oct., 886
treatment of, *1984*: Oct., 889–894
vertical crown-root, in posterior teeth, *1984*: Oct., **883–894**
visual examination and periodontal evaluation of, *1984*: Oct., 886
Frenectomy, electrosurgical, *1982*: Oct., 722
Frenectomy-frenotomy, of maxillary labial frenum, *1982*: Oct., 736–738
Frenum, abnormal, electrosection of, *1982*: Oct., 736–738
elimination of, by electrosurgery, *1982*: Oct., 722
Fulguration, by electric methods, *1982*: Oct., 685
Functional impression materials, laboratory evaluation of, *1984*: Apr., 248–249
properties required of, *1984*: Apr., 241
Functional matrix concept, genomic and nongenomic factors in, *1983*: July, 447
hypothesis of, *1983*: July, 446–448
relationship to TMJ dysfunction and treatment, *1983*: July, **445–455**

Geriatric patients, multiple disease states of, *1984*: July, 582–583
multiple medications and, *1984*: July, 583–585
pharmacodynamic and pharmacokinetic changes in, *1984*: July, 585–588
Geriatric pharmacology for the dentist, *1984*: July, **581–591**
psychosocioeconomic factors involved in, *1984*: July, 585
Gingiva, hyperplasia of. See *Hyperplasia, gingival.*
inflammation of, electrosurgery for, *1982*: Oct., 883
recontouring of, in preclinical exercises, *1982*: Oct., 696
Gingival harmony, restoration of, by electrosurgery, *1982*: Oct., 790–793, 892
Gingival recession, prevention of, *1982*: Oct., 748–749
Gingival retraction, *1982*: Oct., 748–749
Gingival tissue, dilation, in restorative dentistry, *1982*: Oct., **759–780**
scalloping, *1982*: Oct., 746–749
Gingivectomy, for Dilantin hyperplasia, *1982*: Oct., 808–810, **825–833**
for elongation of clinical crown, *1982*: Oct., 783–785
in prevention of gingival recession, *1982*: Oct., 748–749
indications for, *1982*: Oct., 878–881
Gingivitis, pregnancy and, *1983*: Apr., 423–424
Gingivoplasty, for elongation of clinical crown, *1982*: Oct., 783–785
Gonorrhea, dental patient with, *1983*: Apr., 264–266
Good Samaritan statutes, dentistry and, *1982*: Jan., 190–191
Graft, autogenous. See *Autograft.*
split-thickness skin, *1982*: Oct., 730–731
Granuloma, periapical, *1984*: Oct., 734–735
Graphic art, preparation in dental photography, *1983*: Jan., 68–70, **75–94**, 96–97, 101–102
Guarantees, in dentistry, *1982*: Apr., 221, 282–283
Gutta-percha, characteristics of, *1984*: Oct., 647–648
lateral condensation of, *1984*: Oct., 647
thermatic condensation of, *1984*: Oct., 648
thermoplastisized injection molding of, *1984*: Oct., 648
warm, *1984*: Oct., 647–648

Halides, side effects of, *1984*: Oct., 794
Head pain, facial, *1983*: July, 496
temporal region, *1983*: July, 502
Headache, *1983*: July, 471–472, 500–503
agents for management of, *1984*: July, 487–489
cluster, *1983*: July, 471–472
involvement of internal pterygoid muscle in, *1983*: July, 501
migraine, *1983*: July, 471, 534
tension, *1983*: July, 472
Hearing loss, TMJ disorders and, *1983*: July, 534
Heart, effect of alcohol on the, *1983*: Apr., 349–350
emergencies involving, *1982*: Jan., 49–69
Heart disease, congenital, dental patients with, *1983*: Apr., 303–304
in dental patient, *1983*: Apr., **303–311, 313–328**
rheumatic, dental patients with, *1983*: Apr., 304–305
Heart murmurs, dental patients with, *1983*: Apr., 305–306
Heimlich maneuver, *1982*: Jan., 199–200
Hemophilia, in patients with dental trauma, *1982*: July, 561
management of, *1983*: Apr., 282–284
Hemorrhage, control of, *1983*: Apr., 280–281, 286. See also *Bleeding problems, of oral cavity.*

Hemorrhage (*Continued*)
control of, by electrocoagulation, *1982*: Oct., 738
detection of, *1983*: Apr., 276–277
extravascular, control of, *1982*: Jan., 80–83
in patients with facial fractures, *1982*: July, 632
intracranial, as cause of stroke, *1982*: Jan., 101
oral, *1984*: July, 537–538
postoperative, control of, *1982*: Jan., 83–85
Hemostasis, classification of diseases of, *1983*: Apr., 274
defined, *1982*: Jan., 71; *1983*: Apr., 271–274
Hepatitis, dental patient with, *1983*: Apr., 247–258
risk of dentist contracting from patient, *1983*: Apr., 254–256
Hepatitis B, in patients with dental trauma, *1982*: July, 561–562
Herpes simplex virus, acute TMJ pain-dysfunction syndrome and, *1983*: July, **631–638**
autoimmune reaction of, *1983*: July, 632
cranial polyneuritis and, *1983*: July, 632
decreased autonomic function and, *1983*: July, 632
pathophysiology of, *1983*: July, 631–632
types I and II, dental patient with, *1983*: Apr., 260–264
Herpes zoster, cranial polyneuritis and, *1983*: July, 632, 636
Hertwig's epithelial root sheath, injury to, *1982*: July, 489–492
Histamine, as immunologic mediator, *1982*: Jan., 88
Histamine headache. See *Cluster headache*.
History, drug, determining the patient's, *1983*: Apr., 387–389
medical, inadequate, as source of malpractice, *1982*: Apr., 337
necessity of, *1982*: Jan., **3–11**
History form, of patient with TMJ dysfunction, *1983*: July, 507–515
Horton syndrome. See *Cluster headache*.
Humphrey appliance, modified, construction of, *1984*: Jan., 64–66
Hydrocodone and oxycodone, *1984*: Oct., 878
Hydrocolloid, irreversible. See *Alginates*.
reversible, advantages of, *1984*: Apr., 229
disadvantages of, *1984*: Apr., 230
suggestions for clinical use of, *1984*: Apr., 230
use for final impressions, *1984*: Apr., 229–230
Hydroxyzine, use of as sedating agent, *1984*: July, 568
Hypercementosis, cause of, *1984*: Oct., 758
Hyperemia, pulpal, *1984*: Oct., 712–714
Hyperglycemia, as emergency in diabetic patient, *1982*: Jan., 117
Hyperplasia, bite plate, electrosurgery for, *1982*: Oct., 715
Dilantin, electrosurgery for, *1982*: Oct., 712–715, 806–810, **825–833**, 882
gingival, *1984*: July, 538–539
electrosurgery for, *1982*: Oct., 781–785
orthodontic, electrosurgery for, *1982*: Oct., 712–714
Hypersensitive dentin, fluoride rinses for, *1984*: July, 624–625
Hypertension, dental patient with, *1983*: Apr., **289–301**
diagnosis of, *1983*: Apr., 289–295
drugs for, interaction with other drugs, *1983*: Apr., 389–395
management of, *1982*: Apr., 295–301
Hyperthermia, malignant, in patients with dental trauma, *1982*: July, 562–563
Hypertrophy. See *Hyperplasia*.
Hyperventilation, as emergency, *1982*: Jan., 206
compared with anaphylaxis, *1982*: Jan., 91
Hypnosedatives, abuse of, *1984*: July, 601–602
Hypnotics, use of in treatment of chronic facial pain, *1984*: July, 486–487
Hypoglycemia, as complication of diabetes, *1982*: Jan., 112
as emergency in diabetic patient, *1982*: Jan., 117
Hypotension, postural, *1984*: July, 515–516, 518
Hypoxia, cardiac arrest and, *1982*: Jan., 59

I and D. See *Drainage, incisions for*.
Ibuprofen, efficacy of as analgesic, *1984*: July, 476
pharmacologic profile of, *1984*: July, 409–410
Identification, dental, of human remains, *1983*: Jan., 152–153
Idoxuridine, use of as antiviral agent, *1984*: July, 450–451
Illustrations, dental. See also *Photography, dental*.
and other flat copy, photographing, *1983*: Jan., 68–70
preparation of, *1983*: Jan., **95–107**
for publication, *1983*: Jan., **197–215**
Imipramine, use of in control of pain, *1984*: July, 480

Immunization, against hepatitis, *1983*: Apr., 256–258
Immunology, principles of, allergy-related emergencies and, *1982*: Jan., 87–89
Implant(s), blade, electrosurgical technique and, *1982*: Oct., 795–797
Impression materials, diagnostic and preliminary, *1984*: Apr., 223–228
  prosthodontics and, *1984*: Apr., **223–237**
  techniques and, tissue conditioning and functional, *1984*: Apr., **239–251**
Impression techniques, final, *1984*: Apr., 228–237
    use of alginate for, *1984*: Apr., 229
Incisors, mandibular, *1984*: Oct., 815
Indomethacin, efficacy of as analgesic, *1984*: July, 477
Infarction, cerebral, as cause of stroke, *1982*: Jan., 100–101
Infections, acute, orodental, *1984*: July, 424
  control of, in electrosurgery, *1982*: Oct., 800
  fungal, *1984*: July, 449–450
  herpes, in dental patient, *1983*: Apr., 260–264
  host factors and, *1984*: July, 431–432
  odontogenic, *1982*: Jan., **129–145**
  opportunistic, *1984*: July, 535–537
  oral, importance of anaerobes in, *1984*: July, 428–429
    in patient with cancer, *1983*: Apr., 237–238
  potential for, with steel scalpel surgery, *1982*: Oct., 731
  viral, *1984*: July, 450–451, 536–537
Infectious arthritis, TMJ and, *1983*: July, 464
Infective endocarditis, degree of risk for, *1984*: July, 458
  patients susceptible to, *1984*: July, 461
  prophylactic antibiotics and, *1984*: July, 457–461
  prophylactic regimen for, *1984*: July, 458
  protection against as recommended by American Heart Association, *1984*: July, 462–463
Inflammation, acute, *1984*: Oct., 710
  as result of injury, *1983*: Oct., 647–649
  chronic, *1984*: Oct., 710–711
  subacute, *1984*: Oct., 711
Influence, mechanisms of, in TMJ dysfunction, *1983*: July, 490–492
Informed consent to treatment, *1982*: Apr., 221, **287–305**, 335
  contemporary judicial views, *1982*: Apr., 289–291
  defense against allegations, *1982*: Apr., 295–301
  safeguard measures for dentist, *1982*: Apr., 302–304
  statutes regarding, *1982*: Apr., 291–294
Inhalants, abuse of, *1984*: July, 602–604
Injections, errors, as source of malpractice, *1982*: Apr., 338
Injury, as cause of pain-spasm-pain, *1983*: July, 512
  pulpal, as cause of intrinsic pigmentation, *1983*: Oct., 661
  reaction of pulpodentinal complex to, *1984*: Oct., 712
Insurance, malpractice, *1982*: Apr., 283–284
Insurance industry, role in malpractice problem, *1982*: Apr., 218–220, 222–224
Instruments, standardization of, *1984*: Oct., 643
  sterilization of, *1984*: Oct., 641–642
Internal anatomy of tooth, visualization of, *1984*: Oct., 810–812
Internal derangements, diagnosis of, in TMJ, *1983*: July, 561–572
Interviewing, dental patient with bleeding disorders, *1983*: Apr., 275–276
  dental patient with increased medical risks, *1983*: Apr., 222–224
Intracanal filling, procedure for, *1984*: Oct., 827–828
Intracanal medicaments, *1984*: Oct., **783–796**
  antimicrobial effects of, *1984*: Oct., 787–793
  categories of use of, *1984*: Oct., 784–785
  complications and side effects of, *1984*: Oct., 793–794
  types of, *1984*: Oct., 785–786
Intracanal preparation, evaluation of, *1984*: Oct., 827
  procedures for, *1984*: Oct., 820–822
Intracanal preparation and filling in routine endodontic therapy, advanced techniques for, *1984*: Oct., **819–832**
Intracranial hemorrhage, as cause of stroke, *1982*: Jan., 101
Intraligamental injection, efficacy of, *1984*: Oct., 866–868
Intraosseous injection, use of in endodontics, *1984*: Oct., 869–870
Intrapulpal injection, anesthetization by, *1984*: Oct., 868–869
Intrapulpal pressure, effect of pulp pathosis on, *1984*: Oct., 705
Intrapulpal pressure variations, pain associated with pulpitis and, *1984*: Oct., 707–708
Irrigants, antimicrobial activity of, *1984*: Oct., 800
  desirable properties for, *1984*: Oct., 800–803
  dissolution of necrotic tissue and, *1984*: Oct., 800–801
  endodontic, history of, *1984*: Oct., 797–799

Irrigants (*Continued*)
periapical tissues and, *1984*: Oct., 801–803
Irrigation, clinical technique of, *1984*: Oct., 805–806
principles of, *1984*: Oct., 644
Isolation and sealing, problems with, *1984*: Oct., 856

Jaw. See also *Mandible*.
development of, *1982*: July, 452–454
fractures of, management of, *1982*: July, 635–658
midline deviations of, *1983*: July, 495
trauma to, radiology of, *1982*: July, 598–611
Joint(s), clicking of, *1983*: July, 556
hypermobile, treatment of, *1983*: July, 586
hypomobile, treatment of, *1983*: July, 586–588
mandible, *1983*: July, 446
neurology of, *1983*: July, 578–579
synovial, *1983*: July, 573
physiology of, *1983*: July, 576–578
temporomandibular. See *TMJ*.
types of, in skull, *1983*: July, 460
Joint disease, degenerative, *1983*: July, 534–540
Jury system, essay on, *1982*: Apr., **261–263**
Juvenile rheumatoid arthritis, of TMJ, *1983*: July, 464

Ketoacidosis, in diabetic patient, *1982*: Jan., 111–112
Ketoconazole, adverse effects of, *1984*: July, 450
drug interactions of, *1984*: July, 450
use of for fungal infections, *1984*: July, 449–450
Kinesiology, applied, in dysfunction of TMJ, *1983*: July, **613–630**
physiologic considerations of, *1983*: July, 613–615
techniques of, *1983*: July, 497

Lactase, deficiency of, *1984*: Apr., 216
Lamina dura, loss or diminution of, *1984*: Oct., 727
Laminate veneers. See also *Veneers, laminate*.
Laminate veneers, *1984*: Jan., **187–203**
application of the bonding agent for, *1984*: Jan., 195–198
clinical techniques for placement of, *1984*: Jan., 188–198
evaluating placement of on model, *1984*: Jan., 193
failures of, *1984*: Jan., 200–202
fractures of, *1984*: Jan., 201
indications for use of, *1984*: Jan., 187–188
laboratory procedures for, *1984*: Jan., 190–193
loosening of, *1984*: Jan., 201
models for, *1984*: Jan., 190
periodontal health and, *1984*: Jan., 188
placement on lower teeth and bicuspids, *1984*: Jan., 198–200
porcelain, *1983*: Oct., 672–680
advantages of, *1983*: Oct., 673
bonding procedure for, *1983*: Oct., 680–681
cementation of, *1983*: Oct., 681–682
etching of, *1983*: Oct., 676–677
impression making for, *1983*: Oct., 675
laboratory procedure for, *1983*: Oct., 676
loosening of, *1983*: Oct., 682
prebonding procedure for, *1983*: Oct., 678–680
preparation of teeth for, *1983*: Oct., 675
procedure, *1983*: Oct., 675–680
preparation of the tooth for, *1984*: Jan., 194–195
removal of, *1984*: Jan., 201–202
selection of, *1984*: Jan., 191–193
shortcomings of, *1983*: Oct., 673
trimming of, *1984*: Jan., 198
Lateral canals, cleaning of, *1984*: Oct., 845–847
enigma of, *1984*: Oct., **833–852**
filling techniques and, *1984*: Oct., 834–837
infection from, *1984*: Oct., 841–845
main canals and, *1984*: Oct., 840
other conditions simulating, *1984*: Oct., 841
percentage of, *1984*: Oct., 837–839
radiopaque areas on radiographs and, *1984*: Oct., 839–840
Lateral canal lesions, endodontic failures caused by, *1984*: Oct., 848–851
Lateral tomography, in radiographic evaluation of TMJ, *1983*: July, 466–468
Law, common, *1982*: Apr., 255–256
defining, *1982*: Apr., **253–259**, 265
Lawyers, ethics in malpractice litigation, *1982*: Apr., 249–250
dentists and, differences in professional viewpoint, *1982*: Apr., 231–236
rapprochement possibilities, *1982*: Apr., **229–243**
role in malpractice problem, *1982*: Apr., 220–222

rules governing conduct, *1982*: Apr., 246–249
Le Fort maxillary fractures, classification, *1982*: July, 649
signs and symptoms, *1982*: July, 650–652
Legal considerations, symposium on, *1982*: Apr., **213–438**
Lesions, bony, peripheral to apices, *1984*: Oct., 731
carious, caused by nursing, *1984*: Jan., 4–9
ranking of according to incidence, *1984*: Oct., 733
shape of, *1984*: Oct., 729
soft tissue, *1984*: Oct., 732
Lettering equipment, in dental photography, *1983*: Jan., 85–90, 122–124
Leukemia, dental patient with, *1983*: Apr., 236–238
Liability, strict, definition, *1982*: Apr., 316
Lichen planus, management of, *1984*: July, 548–549
Lighting, background and, in dental photography, *1983*: Jan., 56–61
Limbs, disparity in length of, in TMJ dysfunction, *1983*: July, 514, 518
Lingual bar, efficacy and comfort of, *1984*: Apr., 308
Lingual cusp occlusion, definition of, *1984*: Apr., 273
Linguoplates, efficacy of, *1984*: Apr., 308
Lip, biopsy of, *1982*: Oct., 803
"double," electrosurgical correction of, *1982*: Oct., 802–805
laceration of, electrosurgical repair of, *1982*: Oct., 803–807
lesion of, loop resection of, *1982*: Oct., 787–789, 859–863
Lithium carbonate, use of in prevention of cluster headaches, *1984*: July, 489
Liver, effect of alcohol on the, *1983*: Apr., 348–349
Liver disease, chronic, management of bleeding problems in, *1983*: Apr., 285
drug considerations for patients with, *1984*: July, 467–468
Loop resection, of lip lesion, *1982*: Oct., 787–789
Lungs, ventilation of, evaluation of, *1982*: Jan., 17

Macrofillers, traditional, *1983*: Oct., 698–700
Malicious prosecution theory, in countersuit litigation, *1982*: Apr., 391–397
Malocclusion. See *Occlusion*.
Malpractice. See also *Negligence*.
alternatives to litigation, *1982*: Apr., 225
analysis of, *1982*: Apr., **215–227**
common examples, *1982*: Apr., 337–339
contract law and, *1982*: Apr., 281
defining, *1982*: Apr., 333–334
history of, *1982*: Apr., 216–217
Malpractice litigation, alternatives, *1982*: Apr., **423–438**
countersuit, *1982*: Apr., **389–400**
decision analysis and, *1982*: Apr., **411–421**
emotional reactions of dentists, *1982*: Apr., **405–409**
ethical framework, *1982*: Apr., **245–252**
lawyer ethics in, *1982*: Apr., 249–250
plaintiffs' view, *1982*: Apr., **333–339**
res ipsa loquitur in, *1982*: Apr., 220–221, 274–275, 335–336
trial proceedings, *1982*: Apr., **353–381**
unwarranted, *1982*: Apr., 391–397
Malpractice trial, *1982*: Apr., **353–381**
Management, of patient with increased medical risks, *1983*: Apr., 229–233
Mandible, deviated, TMJ dysfunction and, *1983*: July, 606–607
fracture of, electrosurgical repair of, *1982*: Oct., 812–816
management of, *1982*: July, 638–648
trauma to, radiology of, *1982*: July, 603–611
Mandibular arch, major connectors for, *1984*: Apr., 308
photographing, *1983*: Jan., 52
retainers for, *1984*: Apr., 308–309
Mandibular cases, 8-tooth class I, major connectors for, *1984*: Apr., 311–312
rests for, *1984*: Apr., 310–311
retainers for, *1984*: Apr., 313
Kennedy class I, *1984*: Apr., 307–309
Kennedy class II, rests for, *1984*: Apr., 315
retainers for, *1984*: Apr., 315–316
Kennedy class III, discussion of, *1984*: Apr., 316
Kennedy class IV, rests for, *1984*: Apr., 316
retainers for, *1984*: Apr., 317
major connectors for, *1984*: Apr., 317
6-tooth class I, *1984*: Apr., 307–309
7-tooth class II, molar clasp assembly for, *1984*: Apr., 310
10-tooth class I, rests for, *1984*: Apr., 313–314
Mandibular cuspids, placement of rests on, *1984*: Apr., 308
postfilling view of, *1984*: Oct., 837
Mandibular fixed prosthesis, conversion to removable prosthesis, *1984*: Apr., 333
Mandibular second premolar abutment, radiograph of, *1984*: Apr., 332
Manipulation, mandibular, as a diagnostic technique, *1983*: July, 565

Manufacturer(s), of electrosurgical equipment, *1982*: Oct., 702–709
Margin, gingival. See also *Gingiva*.
Marginal gingivae, buccal and lingual, examination of, *1984*: Jan., 162
first primary molars and, *1984*: Jan., 164
second primary molars and, *1984*: Jan., 163
proximal, primary molars and, *1984*: Jan., 165–167
Marijuana, abuse of, *1984*: July, 607–608
Marketing, appearance of a dental office as a tool of, *1984*: Jan., 127
professional, for pedodontic practice, *1984*: Jan., **121–136**
public relations in, *1984*: Jan., 124–125
selecting a target for, *1984*: Jan., 123
using media for, *1984*: Jan., 134–135
Marketing mix, development of, *1984*: Jan., 124–135
the "place" component in, *1984*: Jan., 127–128
Masseters, large, as a result of clenching, *1983*: July, 519
and TMJ dysfunction, *1983*: July, 495
Masticatory activity, posture and, *1983*: July, 627–630
Maxilla, fractures of, management of, *1982*: July, 648–658
radiology of, *1982*: July, 652
Maxillary arch, photographing, *1983*: Jan., 50–51
Maxillary cases, class II, major connectors for, *1984*: Apr., 322
rests for, *1984*: Apr., 321
retainers for, *1984*: Apr., 321–322
class III, discussion of, *1984*: Apr., 323
class IV, major connectors for, *1984*: Apr., 323–324
rests for, *1984*: Apr., 323
retainers for, *1984*: Apr., 323
designing of, *1984*: Apr., 317–324
6-tooth class I, major connectors for, *1984*: Apr., 318
rests for, *1984*: Apr., 318
retainers for, *1984*: Apr., 318–319
8-tooth class I, major connectors for, *1984*: Apr., 319–320
rests for, *1984*: Apr., 319
retainers for, *1984*: Apr., 320
10-tooth class I, major connectors for, *1984*: Apr., 321
rests for, *1984*: Apr., 320–321
Maxillary splint, full-mouth, *1984*: Apr., 334
Maxillofacial prostheses, dentofacial trauma and use of, *1982*: July, **613–630**
Media, role in malpractice problem, *1982*: Apr., 224
Medical emergencies, errors in handling, *1982*: Jan., **163–186**
evaluation of patient during, *1982*: Jan., **13–19**
in the dental office, symposium on, *1982*: Jan., **3–208**
management of, training for, *1982*: Jan., **147–162**
Medical history, necessity of, *1982*: Jan., **3–11**
Medical risks, increased, dental patient with, symposium on, *1983*: Apr., **221–429**
management of dental patient with, *1983*: Apr., 229–233
Medically compromised patient, symposium on, *1983*: Apr., **221–429**
Medicaments, intracanal, *1984*: Oct., 644–645
Medications, multiple, in geriatric patients, *1984*: July, 583–585
Mefenamic acid, adverse reactions to, *1984*: July, 410–411
efficacy of as analgesic, *1984*: July, 410
Meperidine, use of as sedative, *1984*: July, 570–571
Metabolism, excretion and, *1984*: July, 499–500
Metal-ceramic. See also *Ceramo-metal preparations*.
restorations and, *1983*: Oct., **747–761**
Metastasis, induced by biopsy, *1982*: Oct., 855–856
Methocarbamol, use of for facial pain, *1984*: July, 485
Methysergide, use of in treatment of vascular headache, *1984*: July, 489
Microfillers (pyrogenic silica), *1983*: Oct., 700–701
Migraine, *1983*: July, 471
Minigingivectomy, in prevention of gingival recession, *1982*: Oct., 748–753
Mirrors, use of in dental photography, *1983*: Jan., 47–52
Misrepresentation, definition, *1982*: Apr., 316
tooth, after trauma to primary dentition, *1982*: Jul., 464
Model(s), in preclinical exercises, *1982*: Oct., 693–697
Modified Widman flap, in electrosurgery, *1982*: Oct., 881–885
Molars, lesions of proximal surfaces of, *1984*: Jan., 13–18
mandibular first, *1984*: Oct., 816–817
maxillary first, *1984*: Oct., 817–818
second primary, resorption of, *1984*: Jan., 62–63
Monomer. See *Oligimer*.

Monoterminal electrode, *1982*: Oct., 683
Monson curve, definition of, *1984*: Apr., 273
Movements, parafunctional, of jaw, *1984*: Apr., 275
tooth. See *Tooth movement* and *Orthodontics*.
Mucosa, thinning of, in elderly, *1984*: Apr., 217
Mucositis, as result of chemotherapy, *1983*: Apr., 239–240
as result of radiation therapy, *1983*: Apr., 241–242
Muscle(s), conjoint, *1983*: July, 614
craniomandibular, *1983*: July, 551–553
decrease of, in elderly, *1984*: Apr., 217
masseter, *1983*: July, 496, 622
of head, pain in, *1983*: July, 505–507
pterygoid, *1983*: July, 496, 500, 523–526, 620, 622–623
shunt, *1983*: July, 614
skeletal. See *Skeletal muscle*.
spurt, *1983*: July, 613
striated, *1983*: July, 613–616
temporal, *1983*: July, 622
tensor tympani, *1983*: July, 523
tensor veli palatini, *1983*: July, 523
testing of, for TMJ disorders, *1983*: July, 616
trauma to, *1983*: July, 615
Muscle relaxants, use of for myofascial pain, *1984*: July, 484–486
Muscle spasms, diagnosis and treatment of, *1983*: July, 506–507
Muscular dystrophy, management of, *1983*: Apr., 363–365
Myocardial infarction, *1982*: Jan., 53–59
cardiac arrest and, *1982*: Jan., 59
defined, *1983*: Apr., 319–323
management of, *1983*: Apr., 323–324

Nadolol, use of in treatment of migraine, *1984*: July, 489
Naproxen, efficacy of as analgesic, *1984*: July, 476–477
potency of as analgesic, *1984*: July, 410
Narcotics, adverse reactions to, *1984*: July, 518–522
NSAIDs combined with, *1984*: July, 418–419
Narcotic addiction, *1983*: Apr., 400
Narcotic analgesics. See under specific agents.
Necrosis of oral mucosa, drug reactions causing, *1984*: July, 534–535
Negatives, reproductions from, in dental photography, *1983*: Jan., 101–103
Negligence, definition of, *1982*: Apr., 316
legal aspects of, *1982*: Jan., 187–188; *1982*: Apr., 270–279
causation in, *1982*: Apr., 276–279
momentary, *1982*: Apr., 337
professional, *1982*: Apr., 273–280
Neoplasia. See also *Cancer*.
hematologic, dental treatment of paient with, *1983*: Apr., 236–238
Neoplasm, as cause of face pain, *1983*: July, 473
Nerves, cranial, *1983*: July, 635–636
Nerve blockade, differential, *1984*: July, 497
Neuralgia, migrainous. See *Cluster headache*.
trigeminal, cranial nerve, disorder of, *1983*: July, 469–471
Neurogenic disorders, in TMJ dysfunction, *1983*: July, 457–458
Neuromuscular disorders, management of, *1983*: Apr., 363–368
Newsletters, public relations and, *1984*: Jan., 130–132
Nitrous oxide-oxygen, contraindications to, *1984*: July, 565–566
mechanism of action of, *1984*: July, 564
No-fault systems, as alternative to malpractice litigation, *1982*: Apr., 429
Non-zinc oxide-eugenol pastes, composition of, *1984*: Apr., 231
Nose, obstruction of, dental care and, *1982*: Jan., 96
NSAIDs, as alternatives to other analgesics, *1984*: July, 475–478
combinations of, *1984*: July, 417–418
use of for chronic facial pain, *1984*: July, 474–475
Numbness, neurologic aspects of, *1983*: July, 513
Nursing caries, *1984*: Jan., 4–9
enamel hypoplasia and differential diagnosis of, *1984*: Jan., 10–12
Nutrition, of the alcoholic patient, *1983*: Apr., 347
Nystatin, use of for fungal infections, *1984*: July, 449

Occlusal balance, definition of, *1984*: Apr., 273
Occlusal porcelain, building of, *1983*: Oct., 758–760
Occlusal restoration, temporary, *1984*: Oct., 690
Occlusal sealants, development of, *1984*: Jan., 21–22
Occlusion, as alternative restoration, to metal, *1983*: Oct., 757–760

Occlusion (*Continued*)
balanced, reasons for, *1984*: Apr., 274–275
differences between natural and artificial, *1984*: Apr., 274
lingual cusp contact, *1984*: Apr., 278–281
lingualized, clinical considerations of, *1984*: Apr., 278–279
reasons for, *1984*: Apr., 278
tooth contacts for balancing, *1984*: Apr., 279–280
nonanatomic, *1984*: Apr., 281
clinical considerations of, *1984*: Apr., 281
plans of, *1984*: Apr., **273–285**
Odontoblasts, injury to, *1982*: July, 485–489

Osteoarthritis, clinical classification of, *1983*: July, 535–536
of TMJ, *1983*: July, 463
radiologic changes in, *1983*: July, 536–539
symptoms of, *1983*: July, 539
Osteitis, condensing, *1984*: Oct., 755–756
rarifying and condensing, *1984*: Oct., 753–754
Osteomyelitis, as complication of odontogenic infection, *1982*: Jan., 143
infection of jawbone as, *1984*: Oct., 740–742
Osteonecrosis, as complication of radiation therapy, *1983*: Apr., 246
Osteopathy, cranial, role in disorders of TMJ, *1983*: July, **595–611**
Osteoporosis, causes of, *1984*: Apr., 215–216
Osteosarcoma, illustrations of, *1984*: Oct., 750–751
Osteosclerosis, idiopathic, *1984*: Oct., 756
Otolaryngologic manifestations, of craniomandibular disorders, *1983*: July, **523–526**
Otomandibular syndrome, symptoms of, *1983*: July, 523–526
Overdentures, *1984*: Apr., **349–360**
accumulation of plaque and, *1984*: Apr., 351
advantages of, *1984*: Apr., 349–350
bar attachments for, *1984*: Apr., 352–359
borders for, *1984*: Apr., 351
disadvantages of, *1984*: Apr., 350
fluoride rinses for, *1984*: July, 626
indications for, *1984*: Apr., 349
removable partial, *1984*: Apr., 352
stud attachments and amalgam restorations for, *1984*: Apr., 352

Overdenture construction, abutment preparation for, *1984*: Apr., 350–351
abutment selection and, *1984*: Apr., 350
recommendations for, *1984*: Apr., 350–351
restoration of abutment teeth for, *1984*: Apr., 351
Overdose, absolute, *1984*: July, 510
relative, *1984*: July, 510
Oxidizing agents, use of as irrigants, *1984*: Oct., 798–799
Oxygen, administration of, *1982*: Jan., 203–205

Pacemaker(s), cardiac, use of electrosurgery with, *1982*: Oct., 690
defined, *1983*: Apr., 324–326
dental patients with, *1983*: Apr., 326–328
Pain, as symptom of TMJ disorder, *1983*: July, 468–469
chronic, drug therapy in management of, *1984*: July, 472–473
ear, *1983*: July, 523–526
facial, *1983*: July, **435–443**, 632
pharmacotherapy for, *1984*: July, **471–491**
head, *1983*: July, 495–498
in TMJ, *1983*: July, 501
moderate, analgesics for, *1984*: July, 397
prevention or control of, *1984*: Oct., 790
psychogenic, *1984*: July, 490
severe, analgesics for, *1984*: July, 396–397
Palate, development of, *1982*: July, 450–452
Panoramic radiography, diagnostic information gained with, *1984*: Jan., 48–49
versus full-mouth series, advantages and disadvantages of, *1984*: Jan., 54–55
Papilla, dental, development of, *1982*: July, 457–458
Para-aminophenols, efficacy of, *1984*: July, 407–409
Paraprofessionals, improper use of, *1982*: Apr., 338
Paresthesia, *1983*: July, 470–471
Partial denture. See *Denture, partial* and *Precision attachments*.
Partial thromboplastin time, importance of, *1982*: Jan., 74–75
Patch tests, for allergies, *1983*: Apr., 409–410
Patients, allergic, identification of, *1983*: Apr., 405–407
Patient history, examination and, *1984*: Oct., 726–732
Pediatric patients, problems of medication with, *1984*: July, **563–579**
Pedodontics, electrosurgery in, *1982*: Oct., **711–728**
symposium on, *1984*: Jan., **3–203**
Pemphigoid, cicatricial, *1984*: July, 549–550
Penicillins, adverse effects of, *1984*: July, 440–441
allergic reaction to, *1982*: Jan., 95
narrow-spectrum deriviatives, *1984*: July, 438–439
use of in orodental infection, *1984*: July, 433–441
Penicillin derivatives, extended-spectrum, *1984*: July, 439–440
Penicillin G and V, therapeutic use of, *1984*: July, 438
Penicillinase-resistant penicillins, therapeutic use of, *1984*: July, 439
Peptides, opiate receptors and, *1984*: July, 390–392
Percussion, sensitivity of tooth to, *1984*: Oct., 779
Perforation, treatment of, *1984*: Oct., 944–946
Perfusion, central, evaluation of, *1982*: Jan., 15–16
peripheral, evaluation of, *1982*: Jan., 15
Periapical cementoma, mature, *1984*: Oct., 756–758
Periapical images, classification of, *1984*: Oct., 732
Periapical radiolucencies, radiopaque foci with, *1984*: 753–755
Periapical radiopacities, false, *1984*: Oct., 759–761
multiple true, *1984*: Oct., 758–759
Periapical shadows, true or false. *1984*: Oct., 729–732
Pericoronitis, acute, electrosurgery for, *1982*: Oct., 731–732
electrosurgery for, *1982*: Oct., 738–739
treatment of, *1982*: Jan., 140–141
Periodontal disease, in alcoholics, *1983*: Apr., 357
in diabetic patient, *1983*: Apr., 339
loss of maxillary teeth caused by, *1984*: Apr., 328
periapical radiolucencies of, *1984*: Oct., 742
results of, to remaining teeth, *1984*: Apr., 327
Periodontal pack(s), *1982*: Oct., 757, 832, 843
Periodontal pocket, probing of, *1984*: Oct., 780
Periodontal support, loss of, *1984*: Oct., 946
Periodontal trauma. See *Occlusal trauma*.
Periodontally compromised patients, diagnostic procedures for, *1984*: Apr., 335
precision attachment removable partial dentures for, *1984*: Apr., **327–336**
clinical examples of, *1984*: Apr., 328–335
Periodontics, electrosurgery in, *1982*: Oct., **825–833, 873–889**
Periodontic lesions, primary, *1984*: Oct., 770–772
secondary pulpal involvement with, *1984*: Oct., 772–777

Periodontitis, electrosurgery for, *1982*: Oct., 883
Periodontium, injury to, *1982*: July, 492–495
Permanent dentition, trauma to, clinical significance of, *1982*: July, **481–504**
treatment of, *1982*: July, **525–554**
young, direct pulp capping and pulpotomy in, *1984*: Oct., 664–667
pulp therapy for, *1984*: Oct., 663–664
Permanent molars, ectopically erupting, self-correction of, *1984*: Jan., 66
treatment of, *1984*: Jan., **57–66**
erupted versus unerupted, *1984*: Jan., 61–62
impaction of, minimal versus severe locks, *1984*: Jan., 60–61
pH, effects of, *1984*: July, 498–499
Pharmacology, clinical, of opioid analgesics, *1984*: July, **389–400**
Pharmacology and therapeutics, symposium on, *1984*: July, **389–629**
Phenacetin, interactions with other drugs, *1983*: Apr., 388
Phencyclidine, abuse of, *1984*: July, 606–607
Phenylbutazone, efficacy of as anti-inflammatory agent, *1984*: July, 477
interactions with other drugs, *1983*: Apr., 390
Phenytoin. Also see *Dilantin*.
antiepileptic properties of, *1984*: July, 482
Photography, dental, copying in, *1983*: Jan., 97–100
courses on, *1983*: Jan., 4, 109–117, 176–177
equipment for, *1983*: Jan., 4–10, 110, 139, 144–145, 151, 155–161, 171–175. See also *Cameras in dental photography* and *Slides in dental photography*.
practice management in, *1983*: Jan., 178–190
reference books for, *1983*: Jan., 199, 201, 202
slides in. See *Slides in dental photography*.
techniques in, *1983*: Jan., 40–65, 165–167
three-dimensional objects in, *1983*: Jan., 100–101
Pigmentation, intrinsic, causative factors of, *1983*: Oct., 658–661
oral, *1984*: July, 539–541
drug-related, *1984*: July, 540–541
Pigmented teeth, methods of treatment for, *1983*: Oct., 663–669
Placebo, effect of, *1984*: July, 489–490
Planing, root. See *Root planning*.
Plaque control, disabled patients and, *1984*: Jan., 105
Plasma albumin, relative reference values for, *1984*: July, 588
Platelets, role in hemostasis, *1982*: Jan., 72
Platelet/vessel defects, compared with coagulation defects, *1983*: Apr., 277
Polycarboxylate cement. See also *Cements, polycarboxylate*.
Polyethers, advantages of, *1984*: Apr., 236
composition of, *1984*: Apr., 236
disadvantages of, *1984*: Apr., 236
suggestions for clinical use of, *1984*: Apr., 236–237
Polysulfides, advantages of, *1984*: Apr., 232
characteristics of, *1984*: Apr., 232
disadvantages of, *1984*: Apr., 232–233
suggestions for clinical use of, *1984*: Apr., 233
Porcelain(s), new, metal bonding and, *1983*: Oct., 754–757
Porcelain laminate veneers bonded to etched enamel, *1983*: Oct., **671–684**
Porphyria, acute intermittent, *1984*: July, 525–526
as cause of intrinsic pigmentation, *1983*: Oct., 659
Positioning, condylar, in craniomandibular dysfunction, *1983*: July, 541
Posts, cement for, *1984*: Oct., 936–937
contraindications for, *1984*: Oct., 925–926
custom, *1984*: Oct., 927–929
indications for, *1984*: Oct., 925
prefabricated, *1984*: Oct., 929–934
Post cementation, important considerations for, *1984*: Oct., 937–938
Post channel, dimensions of, *1984*: Oct., 936
Post installation, choice of roots for, *1984*: Oct., 926–927
Post space, preparation of, *1984*: Oct., 934–935
Posterior teeth, porcelain and acrylic, physical properties of, *1984*: Apr., 300–304
selection of, *1984*: Apr., **299–306**
vertical crown-root fractures in, *1984*: Oct., **883–894**
Posters, dental, preparation of, *1983*: Jan., 105–107
Postoperative care, inadequate, source of malpractice, *1982*: Apr., 338
Postsurgical management, basic principles of, *1984*: Oct., 907
Posture, abnormal, TMJ dysfunction and, *1983*: July, 497
masticatory activity and, *1983*: July, 627–630
Pour resins, advantages of, *1984*: Apr., 293–295
construction of denture bases from, *1984*: Apr., 293–295
limitations of, *1984*: Apr., 295
Practice management, in dental photography, *1983*: Jan., 178–190
illustration preparation for, *1983*: Jan., 117–119, 147–149, 203–214
table preparation for, *1983*: Jan., 202–203

text preparation for, *1983*: Jan., 197–202
Pregnancy, gingivitis in, *1983*: Apr., 423–424
physical changes during, *1983*: Apr., 419–424
Pregnant woman, dental management of, *1983*: Apr., **419–429**
drugs for, *1983*: Apr., 426–427; *1984*: July, 465–467
oral changes in, *1983*: Apr., 423–424
taking radiographs of, *1983*: Apr., 427
Preventive dentistry, occlusal sealants and, *1984*: Jan., **21–35**
Primary dentition, injury to, *1982*: July, **461–480**
Primary incisors, acid etching and, *1984*: Jan., 152
avulsion of, *1984*: Jan., 182
crown fractures of, *1984*: Jan., 183–184
modified class III cavity preparation and composite filling technique for, *1984*: Jan., **145–155**
morphology of, *1984*: Jan., 147–149
pulp protection for, *1984*: Jan., 151–152
root fractures of, *1984*: Jan., 183
traumatized, calcification of pulp chamber and canal as a result of, *1984*: Jan., 184
traumatized, discoloration of, *1984*: Jan., 184
Primary teeth, direct pulp capping of, *1984*: Oct., 655
formocresol pulpotomy on, *1984*: Oct., 655–658
pulp therapy for, *1984*: Oct., 653–655
pulpectomy and root canal filling on, *1984*: Oct., 658–659
Product liability, in malpractice litigation, *1982*: Apr., 221
Professionalism, among dentists and lawyers, *1982*: Apr., 234–236
Progressive systemic sclerosis, TMJ pain and, *1983*: July, 464–465
Promethazine, use of as sedative agent, *1984*: July, 569
use of in sleep management, *1984*: July, 483
Propionic acid derivatives, efficacy of, *1984*: Oct., 875–876
Propoxyphene, interactions with other drugs, *1983*: Apr., 388
Propranolol, prophylaxis of migraine with, *1984*: July, 488–489
Prostheses, dental patients with valvular, *1983*: Apr., 307–309
preventing bacterial endocarditis in, *1983*: Apr., 309–311
maxillofacial, orofacial trauma and, *1982*: July, **613–630**
periodontal. Also see *Implants*.
removable partial denture as, *1984*: Apr., **337–348**
Prosthetic teeth, factors for considerations of, *1984*: Apr., 277–278
posterior, advantages and disadvantages of porcelain and acrylic materials for, *1984*: Apr., 305
Prosthodontics. See also *Crown and bridge* and *Dentures*.
baseplate material and, *1983*: Oct., 794–795
closure material and, *1983*: Oct., 795
denture base materials and, *1983*: Oct., 797–800
electrosurgery in, *1982*: Oct., **745–758, 759–780,** 844–847
Prosthodontics, impression materials for, *1983*: Oct., 793–794; *1984*: Apr., **223–237**
new materials and techniques in, *1983*: Oct., **793–803**
removable, symposium on, *1984*: Apr., **211–385**
tray materials and, *1983*: Oct., 794
Prosthodontic patient, psychological assessment of, *1984*: Apr., **361–367**
Prosthodontic treatment, psychological reasons for, *1984*: Apr., 363–364
Protein loss, effects on elderly, *1984*: Apr., 217–219
Proteolytic enzymes, use of as irrigants, *1984*: Oct., 798
Prothrombin time, importance of, *1982*: Jan., 74–75
Provisional restorations. See *Restorations, provisional*.
Proximate cause concept, in liability for patient injury, *1982*: Apr., 355–356
Psoriatic arthritis, TMJ pain and, *1983*: July, 464
Psychedelics, abuse of, *1984*: July, 606
Psychological assessment, effect of on dental treatment, *1984*: Apr., 366
prosthodontic patient and, *1984*: Apr., **361–367**
Psychosedatives, analgesics combined with, *1984*: July, 419–420
extrapyramidal reactions to, *1984*: July, 517–518
reactions to, *1984*: July, 513–518
Publication of dental article. See *Charts and graphs, preparation in dental photography*.
Pulmonary edema, evaluation of, *1982*: Jan., 16
Pulps, asymptomatic nonvital, *1984*: Oct., 857–859
capping of, *1983*: Oct., 653–654
iatrogenic injury to, *1983*: Oct., 649–652
inflammation of, *1983*: Oct., 649
nature of, *1984*: Oct., 701–711
necrosis of, *1982*: July, 478; *1984*: Oct., 719

Pulps (*Continued*)
reactions to injury, *1983*: Oct., 645–649
Pulp capping, direct, *1984*: Oct.,674–675
pulpotomy and, in young permanent teeth, *1984*: Oct., 664–667
indirect, *1984*: Oct., 673–674
Pulp chamber dimensions, coronal factors of, *1984*: Oct., 810
radiographic factors of, *1984*: Oct., 811–812
Pulp change, retrogressive, *1984*: Oct., 719–722
Pulp disease, classification of, *1984*: Oct., 710–722
Pulp therapy, indirect, *1984*: Oct., 653–655
young permanent teeth and, *1984*: 663–664
Pulp therapy for primary and young permanent teeth, *1984*: Oct., **651–668**
Pulp vitality tests, benefits of, *1984*: Oct., 779
Pulpal pathophysiology, profile of, *1984*: Oct., 706
Pulpal pathosis, classification and diagnosis of, *1984*: Oct., **699–724**
Pulpal-periodontal lesions, true combined, *1984*: Oct., 777–779
Pulpal status, diagnosis of, *1984*: Oct., 651–653
Pulpalgia, acute, *1984*: Oct., 710
hyperreactive, *1984*: Oct., 711–714
Pulpectomy, root canal filling and, *1984*: Oct., 658–659
technique of, *1984*: Oct., 659–663
Pulpitis, acute, *1984*: Oct., 710
chronic, *1984*: Oct., 710–711
hyperplastic form of, *1984*: Oct., 718
nonpainful, *1984*: Oct., 716–718
painful, *1984*: Oct., 714–716
reversible, *1984*: Oct., 711–714
subacute, *1984*: Oct., 711
symptomatic, vital pulp exposures and, *1984*: Oct., 857
Pulpoperiapical lesions, maxillary sinus and, *1984*: Oct., 761–763
Pulpotomy, calcium hydroxide, *1984*: Oct., 672
apexogenesis following, *1984*: Oct., 665
apical closure, *1984*: Oct., 675–679
direct pulp-capping and, in young permanent teeth, *1984*: Oct., 664–667
formocresol, *1984*: Oct., 655–658
in children, *1982*: Oct., 718–720
Pulse, carotid, in CPR, *1982*: Jan., 65
evaluation of, *1982*: Jan., 14–15

Radiation, minimizing exposure to, *1984*: Jan., 43
protection of the office staff and, *1984*: Jan., 44
recording patient expsoure to, *1984*: Jan., 45
Radiation therapy, treatment of cancer patient by, *1983*: Apr., 240–245
Radiographs, bitewing, *1984*: Jan., 39–40
child management and *1984*: Jan., 43
dental, benefits for children and, *1984*: Jan., 38–42
dental photography of, *1983*: Jan., 65–67, 101, 157, 159
extraoral, *1984*: Jan., 42
indications for, *1984*: Jan., 39
intraoral, techniques of, *1984*: Jan., 44
intraoral or panoramic, *1984*: Jan., **47–56**
occlusal, *1984*: Jan., 41
of pregnant woman, *1983*: Apr., 427
panoramic, *1983*: July, 548
periapical, *1984*: Jan., 40
difficulty with children in obtaining, *1984*: Jan., 47
Radiographic evaluation, TMJ dysfunction and, *1983*: July, 465–469
Radiographic examination, importance of, *1984*: Oct., 779–780
Radiography, conventional, and TMJ dysfunction, *1983*: July, 527–533
transcranial, of TMJ, *1983*: July, 527–533
transfacial, of TMJ, *1983*: July, 527–533
Radiology, dental, for children, *1984*: Jan., **37–45**
of facial fractures, *1982*: July, 636
of maxillary fractures, *1982*: July, 652
of TMJ, *1983*: July, **527–540**
of trauma, *1982*: July, **591–611**
risk to children from, *1984*: Jan., 37–38
Radiolucencies, false periapical, *1984*: Oct., 749–753
globulomaxillary, *1984*: Oct., 745–748
periapical, *1984*: Oct., **725–766**
periapical with radiopaque foci, *1984*: Oct., 753–755
pulpoperiapical, *1984*: Oct., 733–742
Radiopacities, periapical, *1984*: Oct., 755–761
true, *1984*: Oct., 755–759
Ramus, fractures of, management of, *1982*: July, 648
Ranula, of floor of mouth, electrosurgical removal of, *1982*: Oct., 732–733, 740–741
Recall, procedures for, *1984*: Oct., 679, 692
Receptors, articular, synovial joints, and, *1983*: July, 579–581
Reconstructive dentistry, electrosurgery in, *1982*: Oct., **799–823**
Refilling, procedures for, *1984*: Oct., 690–691
Reliner materials, evaluation program for, *1984*: Apr., 250
Remineralization, topical fluoride and, *1984*: July, 619
Remodeling of TMJ, influence of function on, *1983*: July, **479–494**

Removable partial dentures. See also *Dentures.*
components of, *1984*: Apr., 338–345
denture bases for, *1984*: Apr., 344
designing of, *1984*: Apr., **307–325**
direct retainers for, *1984*: Apr., 340–343
indirect retainers for, *1984*: Apr., 344
maintenance phase of, *1984*: Apr., 346–347
major connectors for, *1984*: Apr., 338–339
minor connectors for, *1984*: Apr., 339–340
proximal plates for, *1984*: Apr., 343–344
swinglock, *1984*: Apr., 345–346
Removable prosthodontics, symposium on, *1984*: Apr., **211–385**
Renal disease, end-stage, drug considerations for patients with, *1984*: July, 463–465
Rendering contents of canal inert, ways of, *1984*: Oct., 789–790

Ulcers, herpetiform, *1984*: July, 547
Unconscious patient, management of, *1984*: July, 511–512

Vancomycin, activity, absorption and excretion of, *1984*: July, 447
  adverse effects of, *1984*: July, 448
  therapeutic use of, *1984*: July, 447–448
Vasoconstriction, role in muscular spasm, *1983*: July, 441–442
Vasoconstrictors, addition of to anesthetics, *1984*: July, 501–503
  effects on bronchial smooth muscle, *1984*: July, 503
  systemic effects of, *1984*: July, 502–503
Vasodilators, interactions with other drugs, *1983*: Apr., 386
Vasovagal reaction, compared with anaphylaxis, *1982*: Jan., 91
Veneers, characterized, *1984*: Jan., 202
    changes in laboratory procedures for, *1984*: Jan., 202
    clinical procedures for, *1984*: Jan., 202
    properties of, *1984*: Jan., 202
    laminate. See *Laminate veneers.*
Venereal disease, dental patient with, *1983*: Apr., 258–268
  risk of dentist contracting from patient, *1983*: Apr., 260, 263–264, 266, 267–268
Venous pressure, evaluation of, *1982*: Jan., 16
Ventilation, evaluation of, during emergency, *1982*: Jan., 17–18
  mouth-to-mouth, *1982*: Jan., 62–63
  mouth-to-nose, *1982*: Jan., 63
  of lungs, evaluation of, *1982*: Jan., 17
Ventricular fibrillation, *1982*: Jan., 59
Vertigo, TMJ disorders and, *1983*: July, 496–497, 632
Vestibulotomy, for alveolar ridge extension, *1982*: Oct., 734–738
Vitamins and minerals, role of, *1984*: Apr., 218–219
Vomiting, nausea and, *1984*: July, 518–519
von Willebrand's disease, management of, *1983*: Apr., 284–285

Warranty, breath of, in malpractice litigation, *1982*: Apr., 221, 282–283
Warts, genital, dental patient with, *1983*: Apr., 258–260
Washington, University of, dental photography program of, *1983*: Jan., **109–120**
Water loss, chronic, causes of, *1984*: Apr., 214
Wound healing, after biopsy, *1982*: Oct., 856
  in electrosurgery vs. steel scalpel surgery, *1982*: Oct., 835–838

Xerostomia, as result of radiation therapy, *1983*: Apr., 241
  in patients on hypertensive medication, *1983*: Apr., 300
  patients with, *1984*: July, 626
  postmenopausal women with, *1984*: Apr., 212
  treatment of, *1984*: July, 552–553
X-ray. See *Radiology* and *Radiography.*

Zinc oxide-eugenol pastes, advantages of, *1984*: Apr., 231
  composition of, *1984*: Apr., 230
  disadvantages of, *1984*: Apr., 231
  suggestions for clinical use of, *1984*: Apr., 231
ZOE, as protective base, *1983*: Oct., 653
Zomepirac, efficacy of as analgesic, *1984*: July, 477–478
Zygoma, fractures of, *1982*: July, 655–658
